The following is an examiner's statement of reasons for allowance: The claims in the application were in product by process format. They were rejected as being anticipated by or obvious over Brodmann or Sieloff or Bianco et al. In each of the three patents cited, the product was dyed using different carriers from those claimed in applicant's process. The examiner stated that the dye carriers do not remain in the dyed article after dyeing, and so the dyed article contains only dye and substrate polymer. Applicant has submitted two declarations which provide evidence that the dyed polymers, polycarbonate and polyurethane, when dyed by applicant's method do indeed contain residues of applicant's plasticizing agent, butyl cellosolve and applicant's leveling agent, diethylene glycol. Accordingly, both the anticipation and the obviousness rejections of record have been overcome.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
